### ISN Selected by Willbros Group

Further Developing ISN's Client Base

DALLAS (April 16, 2013) — ISN welcomes Willbros Group as its newest client. As a contractor for over 10 years, Willbros Group has recently expanded their relationship with ISN to include subcontractor management. ISN will provide Willbros Group with an enhanced, streamlined reporting and monitoring process for health, safety and procurement information on its subcontractors.

Willbros Group, previously headquartered in Tulsa, Oklahoma before moving to Houston, Texas in 2000, is a global engineering and construction company specializing in energy infrastructure. Willbros Group has been providing services to the oil and gas industry across 100 U.S. locations for more than a century.

"We are very pleased to have the opportunity to further our long-standing relationship with ISN through the management of our subcontractors," said Orval Williams, Willbros Group Corporate HSE Director. "Ensuring an effective subcontractor management process demonstrates our commitment to excellence, accountability and compliance across all our divisions."

In addition to their U.S. sites, Willbros Group also operates throughout South America, Canada, Australia, Asia and Africa. Their worldwide locations provide engineering, construction, pipeline integrity management, maintenance, turnaround and field services.

"Willbros Group joins more than 25 contractor companies using ISNworld for subcontractor management to improve workplace safety," said Brittany Boynton, Senior Manager, ISN Contractor Development. "We value the relationship we have built with Willbros Group and expect continued success as we partner in the management of their subcontractors. It remains a top priority of ISN to add value for our contractor customers. As a long-standing customer, Willbros Group's decision to expand their use of ISNworld illustrates the value they have seen in our system and service."

#### About ISN

ISN provides an online contractor management database, ISNworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 46,000 contractors and 290 Owner Clients. ISN's subject matter experts review and verify this information to assess the accuracy, relevance and timeliness of the data. Connecting Owner Clients with safe, reliable and sustainable contractors and suppliers around the globe allows these organizations to use ISN as an integral part of their management systems.
